DAEGIL ORGANIZATION

RODENT GLUE BOARD

DG-1111

Product size Folded 160×215(mm) / Unfolded 327×215(mm) **Package** 2 PK / 5 PK / 10PK / 20PK / Bulk

Special Feature

- Contain Peanut scent as attractant
- Water-proof coated and thick paper board
- 13 glued lines to increas capturing rats
- Foldable into the shaped of box and tunnel
- Can be installed several board in order to capture big rats
- Eco-friendly materials product without containing poisonous substances

NEW NO RUN TRAP

DG-1101

Product size Folded 258×190(mm) / Unfolded 258 × 383(mm) **Package** 2traps / poly bag, 10bags / case, 10cases / carton

Special Feature

- Pre-baited with food favored by rats to raise the capturing effect
- Convenient to use and dispose
- Very cost-effective and easy to control mice and flying insects
- Eco-friendly materials product without containing poisonous

MOUSE GLUE BOARD

DG-1111

Product size 202×126(mm)
Package 4 boards / pack, 125 packs/ carton

Special Feature

- Pre-scented with Peanut or Cherry scent to raise the capturing effect
- Strong adhesive coverage designed to capture rats and mice
- Can be installed your multiple catch-unit
- Bulk packed available for professional pest contr
- Peel off the release paper and fold into triangle or tunnel shape for use in tight area

RAT GLUE BOARD

DG-1107R

Product size 279×135(mm)
Package 4 boards / pack, 125 packs / carton

GLUE TRAP – LARGE

DG-1102

Product size 222×122×9(mm)
Package 2traps/box, 48boxes/carton

Special Feature

- Hard plastic tray
- Excellent performance to capture small mice and big rats
- Bulk-packed available for professional pest controllers

GLUE TRAP – GIANT

DG-1109

Product size 264×132×9(mm)
Package 2traps / box / 48boxes /carton

- Pre-scented with Peanut or Cherry scent to raise the capturing effect
- Bulk-packed available for professional pest controllers

RAT CONTROL

HOUSE GLUE TRAP

DG-1103

Product size Glue trap 220×122×9(mm) / Installed 270×125×130(mm) **Package** 2traps+2paper guard / box, 30boxes / carton

Special Feature

- Hard plastic tray
- Excellent performance to capture small mice and big rats
- Cover the glue trap with paper guard to increase the life of glue trap in high dusty area
- Pre-scented with Peanut or Cherry scent to raise the capturing effect
- Bulk-packed available for professional pest controllers

GLUE TRAP - SMALL

DG-1106

Product size 87×131× 8 (mm)
Package 4traps / box, 48boxes / carton

Special Feature

- Pre-baited with Peanut or Cherry scent
- Excellent performance to capture small mice and big rats
- Bulk-packed available

GLUE TRAP - LARGE

DG-1108

Product size 130×258×8 (mm)
Package 2trays / box, 48boxes / carton

- Light PP material tray
- Bulk-packed available

FLYING INSECTS CONTROL

FLY CATCHER

DG-1201

Product size 45×650(mm) **Package** 4traps / box, 14boxes / display case, 8 display cases / carton box

Application

1. For Monitoring: 5 traps per 1000M2
 2. For Controlling: 1 traps per 2m2 ~ 1 trap per 20 m2
- o The amount of installation may vary according to the environments of the place to be installed

ROLL TRAP

**1 YELLOW ROLL TRAP DG-1410
BLUE ROLL TRAP DG-1411**

Product size 0.06T×30cm×100m
Package info 2roll / carton

**2 YELLOW ROLL TRAP DG-1412
BLUE ROLL TRAP DG-1413**

Product size 0.06T×20cm×100m
Package info 2roll / carton

**3 YELLOW ROLL TRAP DG-1414
BLUE ROLL TRAP DG-1415**

Product size 0.06T×15cm×100m
Package info 2roll / carton

**4 YELLOW ROLL TRAP DG-1416
BLUE ROLL TRAP DG-1417**

Product size 0.06T×10cm×100m
Package info 2roll / carton

Character

1. Specific color wave length attracts Insects, Yellow color for whitefly, Aphids, Leaf miners, Blue color for Thrips, Sciarids.
2. Outstanding for controlling and mass collection of insects.
3. Double spread glue on PE film
4. Water Proof
5. Environmental-friendly product

Application

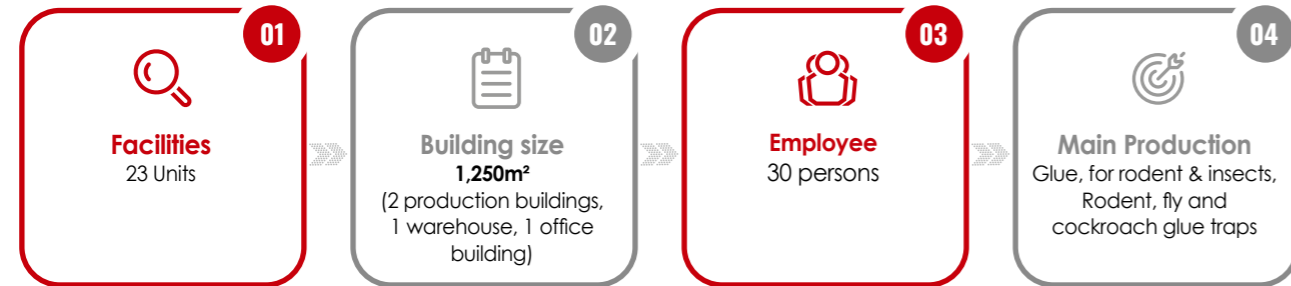

1. DG1410/1411(30cm×100M): 100~120m per 10a
2. DG1412/1413(20cm×100M): 250~350m per 10a

PRODUCTION FACILITIES

Our production facilities include 3 units for our excellent-quality glue manufacturing and more than 20 units for our all glue-based products. As all production process are automated from "adhesive-manufacturing", our key technology, through "glue-application" and "packing", it is available for mass production of various kinds of glue traps.

Now, we are attempting to modernize our production plant and boost our capacity and efficiency in order to meet customer's diversified requirement.

VARIOUS CERTIFICATION AND PATENTS

PROMOTION AND MARKETING

Daegil has been distributing the high-quality products to over 50 customers in 30 countries.

RESEARCH & DEVELOPMENT ACTIVITIES

Based on continuous investment in R&D, Daegil has been developing new technology with best standard quality and latest production system.

Since its establishment in 1968, Daegil's excellent staffs have promoted to develop products continuously and improve the product quality on the basis of technology and know-how accumulated for over 50 years. Especially, this R&D team has made efforts not only to develop eco-liquid adhesive to combat the insects effectively and safely but also to develop the pest controlling method using various insects' ecology and behavior. In addition, through forward-looking business process by making technical partnership with the overseas related companies, this R&D center is focusing on manufacturing the world top products.
